

Website Building: Basic Layout

HTML - Tables

The following exercise contains the following subjects:

- Tables

Instructions

Create a simple table that looks like this:

STUDENTS MARK SHEET

Name	Maths	Science	English	Physics	General Knowledge
David	85	87	88	92	88
Richard	91	81	78	71	74
John	81	86	88	84	92
Tony	84	86	87	82	81
Scott	71	79	82	88	89

Tip:

In order to get this kind of styling, we need to use the style attribute for some of the elements. Google for the following :

- width for the table element
- border-collapse for the table element
- colspan for the headers td element

Extra:

Can you find out how to style the table with nice borders and colors?
