

Front-end development: Debugging JavaScript – functions

The following exercise contains the following subjects:

Debugging

Instructions

Note: We ask you not to solve the bug by finding it with your eyes but to use the debugging tools we've learned!
What is wrong with this code?

- 1. First, find the line that contains the problem. Write it down.
- 2. Which debug method did you use to find the bug?
- 3. Explain the bug in your own words.
- 4. Fix the code and submit it all.

```
function getSum(arr1, arr2){
    const sum = 0;
    for (let i=0; i < arr1.length; i++){
        sum += arr1[i];
    }
    for (let i=0; i < arr2.length; i++){
        sum += arr2[i];
    }
    }
    getSum([1,2,3][5,66,23]);</pre>
```
